

Cut out the pages of each book.

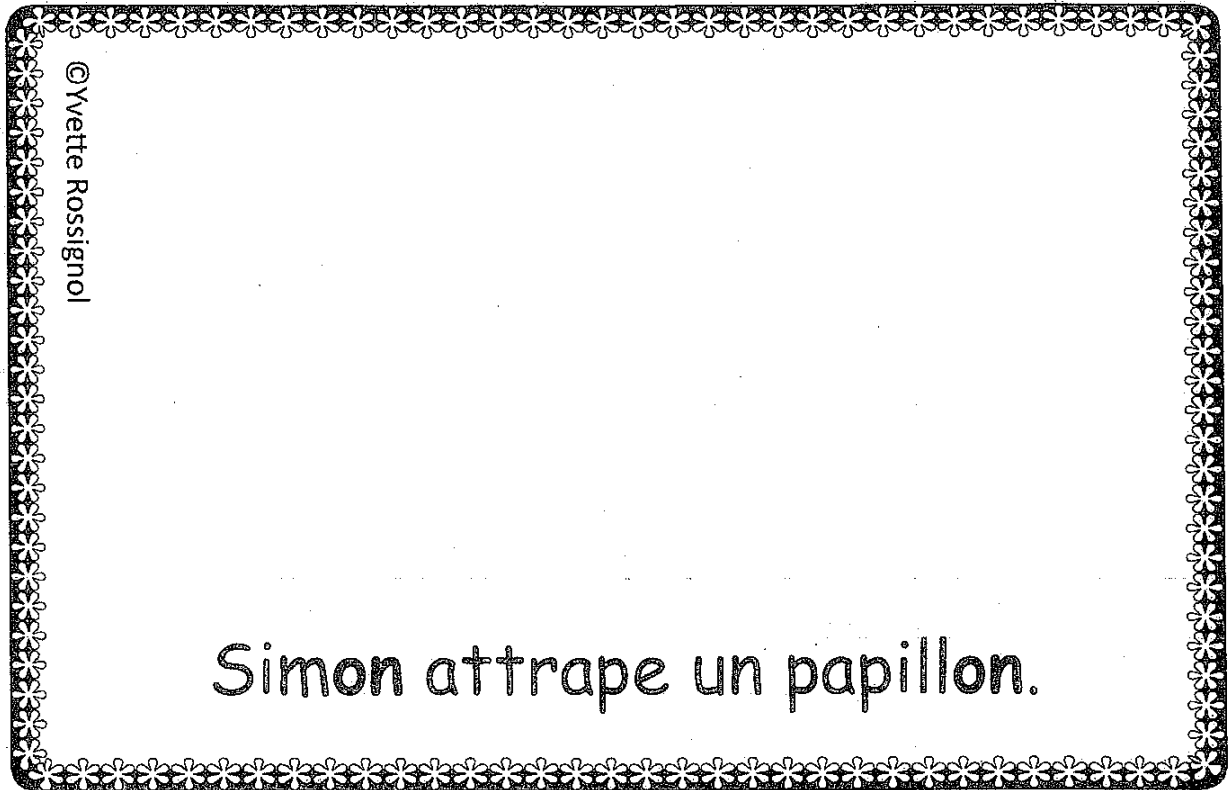

Stack them with the title page first, and then the numbers in following order.

Staple on the left hand side, and your book is ready to read.

There will be a link to Mme reading the book, once I get it read and uploaded to the blog.

**La papillon pond ses œufs sur une feuille.**

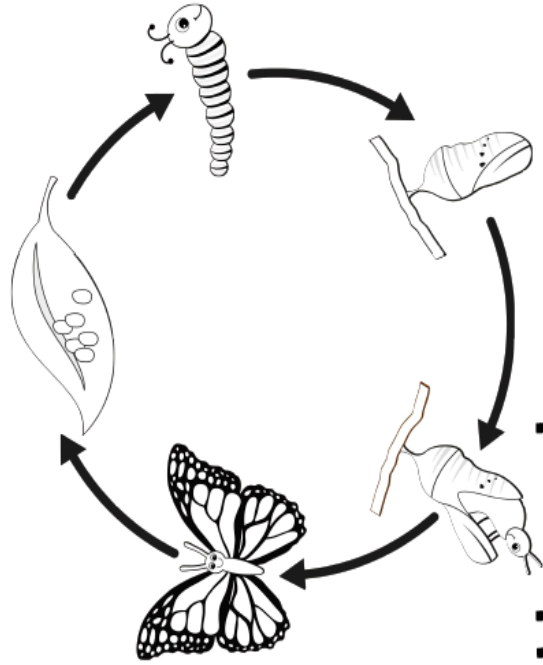

**La chenille se tisse un cocon et deviendra une chrysalide.**

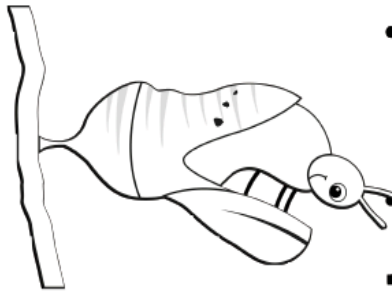

**L'œuf devient une larve, puis une chenille.**

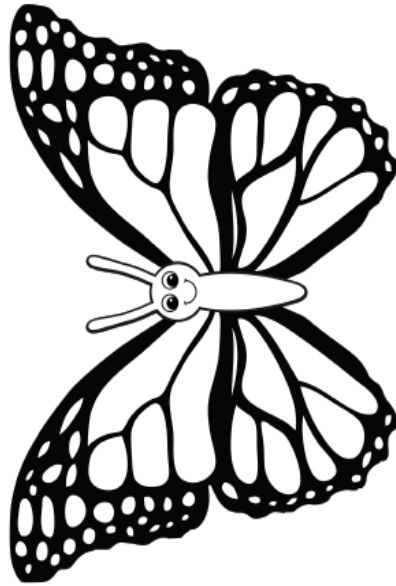

**Le papillon sort ensuite de son cocon et commence à voler.**

**Et le cycle recommence!**

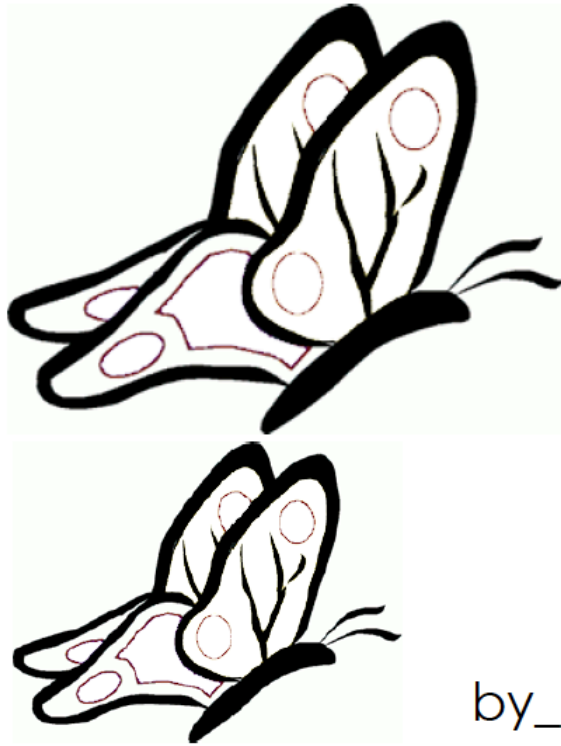

**Après plusieurs jours de transformation, la chrysalide devient un papillon.**

**Devenu adulte, le papillon pourra pondre ses œufs sur une feuille.**

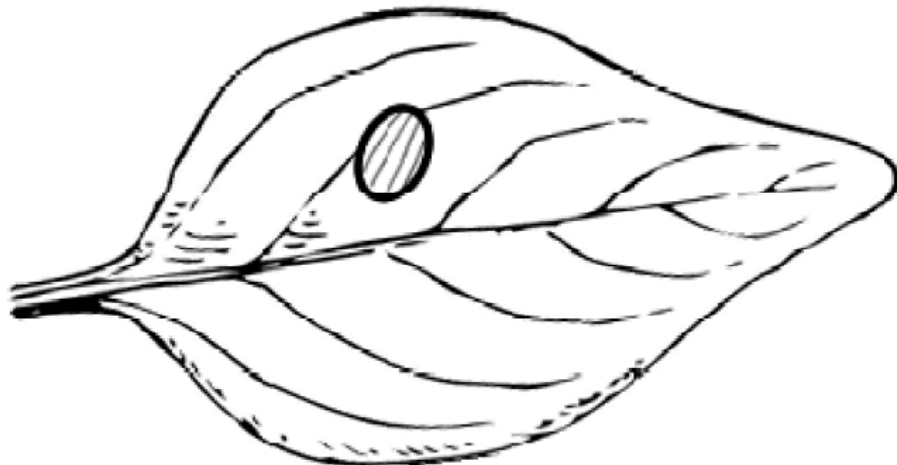

# Life Cycle of a Butterfly

by \_\_\_\_\_

<http://worksheetplace.com>©

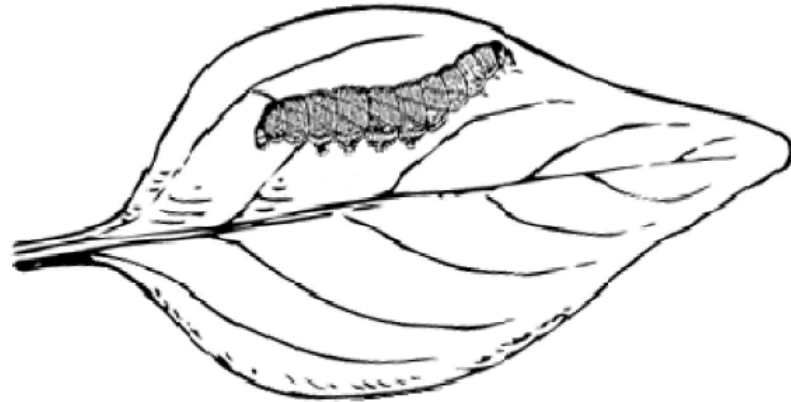

The female butterfly lays eggs  
on a leaf.

1

<http://worksheetplace.com>©

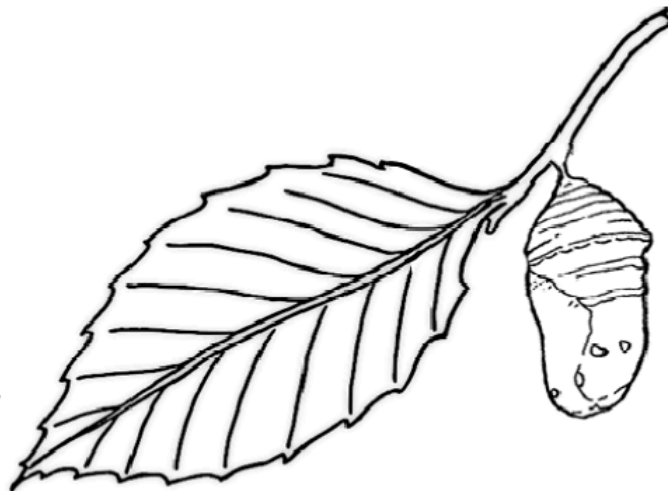

In about 5 days, a caterpillar/  
larva is hatched from the egg.

2

<http://worksheetplace.com>©

In a few weeks the caterpillar/  
larva becomes a pupa/chrysalis.

3

<http://worksheetplace.com>©

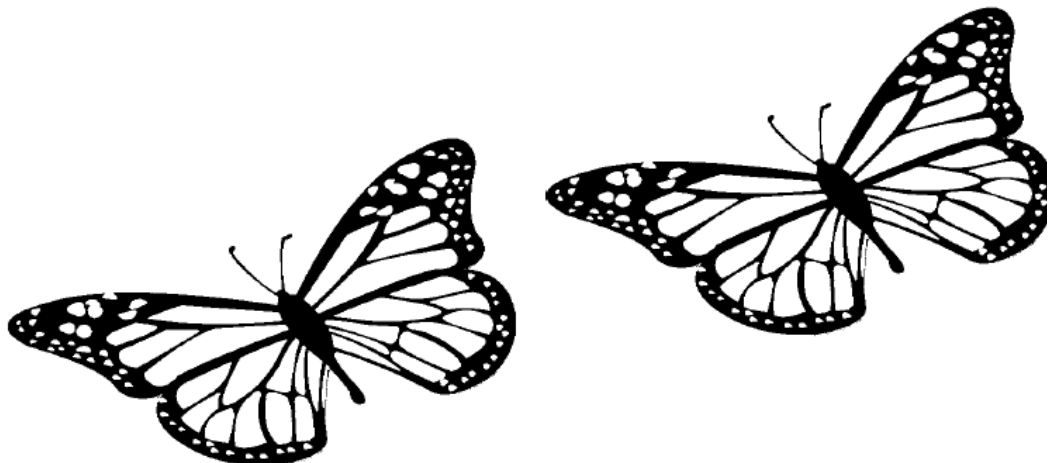

In a few more weeks, the adult butterfly emerges from the pupa / chrysalis.

4

<http://worksheetplace.com>©

When the butterfly finds a mate, she lays more eggs and the cycle starts over.
